UK LIMITED

The Plastic Bottle Specialists

- Standard bottle ranges from 30ml to 5 litres in PE and PP
- Custom moulding facilities
- Direct screen-print
- Label printing and application
- Design and project management for new concepts

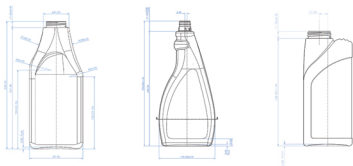

For over 40 years, JUBB UK has specialised in the manufacture of plastic bottles and containers in HDPE, LDPE and PP. From its custom-built facility in Leicester, England JUBB UK produces bottles and containers from 30ml to 5 litres in size for a range of industries, including:

- Automotive
- Craft & Education
- Personal & Haircare
- Household & Chemicals
- Food & Drink
- Pharmaceutical & Veterinary

By offering short lead times and manageable order quantities JUBB UK is the ideal partner for your packaging requirements. At JUBB UK we believe that flexibility, reliability and communication are key to exceeding our customer expectations and therefore to our success.

A diverse machine base, highly skilled staff, around-the-clock manufacturing and constant innovation allow JUBB UK to respond quickly to customer requirements, assure quality and provide excellent service and value for money.

#### HOW WE CAN HELP YOU

- Responsive manufacturing and short lead times give you flexibility in ordering
- We offer manageable minimum order quantities to help minimise your stock holding
- We stock a wide range of bottles and associated caps and closures to ensure we can meet your requirements
- By offering labelling and printing services we can provide a one stop service for your packing needs
- Our Leicester-based facilities offer an ideal geographical location, minimising transport costs and allowing us to respond quickly to your needs
- We can take the hassle out of new concepts by managing projects from initial design through to final manufacture
